

St. George's Venue Map/Instructions

All coaching, rotating, and spectating will be held off of Ft. Adam's State Park(80 Fort Adams Dr). Please plan to park vans at the north end of the fort's parking lot. The race course will be set in close proximity to Ft. Adams. The Fort visitor's center has a public bathroom that should be open. Otherwise, the spectating area is entirely outdoors

The boats will be stored at Ida Lewis Yacht Club(see Aerial Map 1) across the harbor. Following the competitor's meeting sailors will be shuttled by water to ILYC to rig their boats for the first flight. Following racing each day, the final flight's teams will return the boats to ILYC to derig and then will be shuttled back to Ft. Adams to meet their teams

When returning to ILYC docks, please enter the basin one-by-one and stay in the middle of the channel between the rocks to the north and the dock pilings to the south(See Aerial Map 2). The boats are stored sequentially with lower numbers to the right as you view the docks from the water.

When derigging, mainsails should be rolled onto the boom and tied securely with the mainsheet. Jibs should be rolled and placed on the floor of the boat with the jib sheets still run through the blocks. Tank plugs should be removed, rudders can be placed in the transom and forestays should be lightly tensioned. Boats should be pulled up onto the cradles so that the tie-down lines can run aft of the shrouds
